

Easy Wood Tools® Announces Acquisition of Yorkshire Grit, LLC

Lexington, KY, USA, September 2, 2022 – Easy Wood Tools® (EWT), the world’s leading manufacturer of replaceable carbide-tipped woodturning tools and turning accessories, announces that it has acquired Yorkshire Grit, LLC.

Yorkshire Grit, LLC, founded by Glyn Senior of the United Kingdom (UK), the manufacturer of the premier abrasive paste formulated to give a fine keyed surface to your turnings prior to applying your finish of choice. The products contain a proprietary blend of pharmaceutical grade ingredients that are carefully processed together without the use of solvents or other strong smelling and potentially harmful chemicals. The result is a creamy paste that acts like “liquid sandpaper” that reduces scratches left behind by lower grit dry sanding, and eliminating fine dust produced by higher grit sanding. Available in both Original (*for wood*) and Microfine (*for resins/hybrids/wood*)

“In recent years, the Yorkshire Grit brand has grown to be the trusted product used by woodturners in its existing select markets. These high-quality products fit the model of an Easy Wood Tools product offering to a tee,” stated Chris Caliendo, President, Easy Wood Tools. “We are excited to bring the Yorkshire Grit product line to woodturners across the globe through our existing and growing network of retail outlets.”

This acquisition will move product manufacturing to the EWT facility in Lexington, Kentucky, USA, and will increase the availability of Yorkshire Grit products to consumers worldwide. Yorkshire Grit products will be available directly from Easy Wood Tools, EWT direct Amazon Stores, EWT certified affiliate Amazon Stores, and EWT authorized retail stores worldwide.

Easy Wood Tools, founded in 2008, is the leading carbide-tipped woodturning tools and woodturning carbide cutter manufacturer. Easy Wood Tools manufactures turning tools and turning accessories that are high quality, easy to use, suited for all skill levels, and hand crafted in the USA. Based in Lexington, Kentucky, the company sells direct online and through authorized retailers globally. For more information visit www.easywoodtools.com
