

SAFE, STEADY PARTING MADE EASY

1/8" Easy Parting Tool™

- Cuts clean, and provides precise and stable control
- Flexible approach for side cutting and undercutting techniques
- Great reach of tool to accommodate small to larger projects up to 5" diameter
- Permanently mounted Negative Rake Carbide Cutter on replaceable stainless steel blade
- Negative Rake Carbide Cutter for smooth, clean parting through all materials
- When tip is worn simply replace the blade, not the tool, and no sharpening required
- Comes equipped with new blade, replacement blades sold separately
- Blade is easily replaced with included 5/32" standard hex key
- Overall tool length is 19" including 14" Maple handle
- Cutter width is 1/8" on a 2 1/2" long blade
- Solid all-around construction, and built to last
- 100% Made in USA
