

NEW PRODUCT ANNOUNCEMENT

Keep Your Chuck on Your Lathe and Keep Turning

Easy Wood Tools is excited to announce these new products to complement our line of turning tools and turning accessories. These lathe turning accessories were developed with the turner in mind, bringing you a quality purposeful product from the brand you know and trust. Our focus with these products is for turners to keep their chucks on the lathe so you can quickly and easily swap between turning steps and projects.

All Five New Products:

- Work with most 4-jaw Chucks on the market
- Made from nickel-plated steel for superior quality, and built tough
- Provide strong and secure holding power
- 100% Made in USA
- Brought to you by EWT, the trusted manufacturer known for quality and reliability
